Everything you ever wanted to know but felt too shy to ask
Your topics, your pace, your journey

At the inaugural meeting of this new group many topics of enquiry were brainstormed. After discussion it was decided that anything from one, two or three weeks will be devoted to the topic of our choice.

The next two weeks **20th and 27th January 2016** will address **MILK, MEAT AND PAREV** and their pitfalls.

Do come along, enjoy the discussion and even help select the next topic

If you are unable to attend but have an enquiry, Yehudit will be happy to answer questions confidentially, sent to her by email
